

Sprint Report #3

Product Name: UNUS

Team Name: BIGAS UNUS

July 24, 2023

Actions to stop doing:

- Prioritizing less important tasks
- Forgetting to comment code

Actions to start doing:

- Get on discord to code together more often instead of coding alone
- Document progress more thoroughly

Actions to keep doing:

- Productive meetings
- Almost daily/regular standups
- Rapid development of features
- Good pace of progress for our goals

Work completed

- Music playback
- New page that allows users to pick the applications they want to link to their account
- Improvement of frontend aesthetics
- Unit testing file

Work not completed:

- All sprint 3 goals were met

Work completion rate:

- 40 hours total work estimated. We finally feel like we have a good grasp of the coding concepts, and coding development has progressed at a much faster pace than in previous sprints. Almost all the goals set during the release plan have been met, and all sprint plan goals have been met.
